

Proper Household Waste Disposal

Please separate waste properly and place it at the collection point by 8:00 a.m. on the designated collection day.

* Waste that is not placed in the town's designated garbage bags or that is not properly separated cannot be collected.

Waste Sorting Guide

Waste category	Type	Examples
Burnable waste (To be placed in designated bags)	Kitchen waste, paper, plastics, cloths, rubber and leather, small metal items, etc.	Food waste Plastic containers Clothing Shoes Bags Cooking utensils [Wrap carefully to prevent injury] • Please be sure to place waste in the town's designated garbage bags. • Drain food waste well before disposal. • All plastic items that fit into the designated garbage bags are burnable waste. • Wrap sharp or pointed items in paper or cloth to prevent injury.
Non-burnable waste	Glass bottles, ceramics, glass items, light bulbs, cans, bladed items, lighters, etc.	[Glass bottles and ceramics] Empty bottles Ceramics Incandescent LED Glass items [Cans and bladed items] Empty cans Spray cans, cassette gas canisters Lighters Bladed items * Use up all the gas before disposal. • Place them directly into the non-burnable waste container on the designated collection day. • Empty spray cans and cassette gas canisters completely, then puncture them. • Do not crush empty cans. • Wrap bladed items in paper or cloth to prevent injury.
Recyclable waste	Paper, plastic bottles	[Paper] Newspapers, flyers Magazines, miscellaneous paper Cardboard • Separate by type and tie each bundle with string. • Remove tape and shipping labels from the cardboard. [Plastic bottles] • Place them directly into the yellow container on the designated collection day. • Remove the cap and label, rinse the bottle, and crush it. • Caps and labels are burnable waste. • Colored bottles or bottles that cannot be cleaned are burnable waste.
Large burnable waste	Burnable waste too large for designated bags	Cooler boxes Storage cases Plastic tanks Fusuma sliding doors Washtubs Planters Expanded polystyrene Plastic buckets Futons, blankets [Items to be tied with string] Mattresses Cushions (zabuton) Pruned branches • Place them neatly beside the garbage station on the designated collection day. • Items that fit into the designated bag are burnable waste.
Oversized waste	Furniture, bedding, home appliances (excluding items covered by the Home Appliance Recycling Law), metal items, etc.	Furniture, bedding Home appliances Umbrellas Cooking pots, kettles, frying pans • Place them neatly beside the garbage station on the designated collection day. • Electrical appliances with power cords (excluding items covered by the Home Appliance Recycling Law) are classified as oversized waste. • Waste generated by professional contractors cannot be collected. Please ask the contractor to take it back.
Hazardous waste	Dry cell batteries, small rechargeable batteries, fluorescent tubes, light bulbs, mercury-containing items, etc.	[Dry cell batteries, small rechargeable batteries, etc.] Nickel-cadmium batteries Nickel-metal hydride batteries Lithium-ion batteries [Fluorescent tubes and light bulbs] Recycling symbols Ni-Cd Ni-MH Li-ion * Incandescent bulbs and LED bulbs are non-burnable waste. • Place batteries into the designated collection container. • Place fluorescent tubes in a visible location on the collection day. • Place fluorescent tubes and light bulbs in a case if possible to prevent breakage. Broken glass pieces are non-burnable waste. • For small rechargeable batteries, insulate the terminals by covering them with vinyl tape or similar material. (If the battery cannot be removed from the device, dispose of the entire device as hazardous waste.)
